## PROJECTS

---

<https://www.dimendscaasi.com/>

I built a project for your client Dimendscaasi using React.js, HTML, CSS, Bootstrap 5, GSAP, and more. It involved creating a website or web application tailored to Dimendscaasi requirements, including features like showcasing their products/services and providing interactive user experiences.

<https://www.barkevs.com/>

Using HTML, CSS, JavaScript, and Bootstrap, I designed a visually appealing website showcasing Barkevs' services and products. The site includes an engaging user experience with responsive design and interactive elements.

<https://www.bongioielli.com/>

As the founder and developer of [www.bongioielli.com](https://www.bongioielli.com/), an online jewelry store in Chicago, I created an e-commerce website focusing on diamond rings and necklaces. Utilizing React.JS ,HTML, CSS, JavaScript, and Bootstrap, the platform delivers an engaging and user-friendly interface for shoppers to seamlessly browse and buy exquisite jewelry items.
